NATIONAL IMPACT TABLE FOR FLOOD				
Sector	**Minimal**	**Minor**	**Significant**	**Severe**
Society and Economy	Day-to-day routine of households and businesses are generally not affected except in a few places which may see very limited adjustments.	Some short-lived disruption to day-to-day routine of households and businesses in affected areas.	Disruption to majority of day-to-day routine of households and businesses.	Prolonged and widespread disruption to day-to-day routine of households and businesses.
Housing and Buildings	Houses, buildings, and other structures may generally be unaffected.	A few houses and buildings, mostly makeshift or made of unreinforced light materials, may sustain slight to moderate damage.	Several houses and buildings may sustain mostly moderate to extensive damage.	Except for those that are structurally resilient, damage to houses and buildings may be widespread, with the majority likely to sustain extensive or complete damage.
Health and Safety	Health facilities may generally be unaffected.	A few of the health facilities may be affected.	Several of the health facilities may be affected.	Most of the health facilities may be affected.
	No risk for injuries and danger to life may be expected.	Minor injuries and danger to life may be expected.	Serious injuries and danger to life may be expected.	Severe injuries, permanent disability, and danger to life may be expected.
Lifeline and Utilities	Consumer connections may generally be unaffected.	Few consumer connections may experience electric power interruptions.	Several consumer connections may experience electric power interruptions.	Most consumer connections may experience electric power interruptions.
	Household water service connections may generally be unaffected.	A few household water service connections may be affected.	Several household water service connections may be affected.	Most household water service connections may be affected.
Transportation	Road and rail transportation may generally be unaffected.	Some disruptions in road and rail transportation may be expected, with a few passengers stranded. Some journeys may take longer than usual.	Several disruptions in road and rail transportation may be expected, with many passengers stranded. Longer travel times.	Widespread disruptions in road and rail transportation may be expected, with many passengers stranded for long periods.
Agriculture and Fisheries	Crops may generally be unaffected.	Crops, especially those in the critical growth stage, may be submerged or damaged in some agricultural lands.	Crops, especially those in the critical growth stage, may be submerged or damaged in most agricultural lands.	Crops, especially those in the critical growth stage, may be totally damaged.
	Livestock and poultry may generally be unaffected.	Some unsecured livestock and poultry may be lost.	Most of unsecured livestock and poultry may be lost.	Loss of livestock and poultry may be widespread.
	Fish production may be unaffected.	A few losses in aquaculture production may be expected.	Some of the aquaculture production may be lost.	Most of the aquaculture production may be lost.
